

**CHANDLER**

*Cattle Co.*

**PRIVATE TREATY  
BULL SALE**

First off, we would like to thank everyone who has purchased bulls and females in the past and all of you who have expressed interest in this year's offering.

While we have previously sold our bulls as part of another ranch, we were married last summer and have decided to branch out on our own and establish Chandler Cattle Co. Even though the name has changed, we promise that the quality of the cattle has not. We continue to focus on maternal traits that result in functional cows and also keep a keen eye on the terminal traits that matter to our clients' bottom line.

This year's set of bulls have all passed the test for performance, feet, and maternal backing. We are confident they will pass these traits on to their offspring in your herds. Many of the bulls in this year's sale offering are out of young cows that are quickly rising to the top of the program, having raised off a good calf and bred back, while also displaying the phenotype we desire for our program. We are confident that each of the bulls in the offering will be a benefit to the herds that acquire them and look forward to seeing them join your herds.

Sincerely,  
*Colten & Rachael Chandler*

(SEE PRIVATE TREATY LISTINGS)

## INSURANCE

All buyers assume risk of animal upon purchase and are encouraged to purchase insurance.

## ANIMAL HEALTH

Branding: Vaccinated with BoviShield One Shot Ultra BVD, Ultrabac 7 & Autogenous Pinkeye& Dectomax injectable

Pre-Conditioning: BoviShield Gold 5, Ultrabac 7

Post-Weaning: BoviShield Gold 5, Ultrabac 7 Somnus, Valbazen drench

Prior to Sale: Poured with Ivermectin and vaccinated with 2 rounds of Fusoguard footrot vaccine.

## TERMS & CONDITIONS

Terms of sale are cash. Announced changes to catalog information at time of sale take precedence over printed materials. All cattle are the buyer's property as soon as sold. Any person attending the sale does so at their own risk.

Neither the owners, nor any person connected with the sale, assumes any liability, legal or otherwise. Registration papers will be transferred on all purchases.

## GUARANTEE

All bulls selling have passed a breeding soundness exam. Every animal in this sale is to the best of our knowledge, free from disease or defect. Any known defects will be announced or published prior to purchase. All bulls selling will be guaranteed for one full breeding season, the 90-day period following the first turnout of the bulls. 100% of the original purchase value of the injured bull, minus full salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian with a copy of the veterinarian's diagnosis provided to Chandler Cattle. All claims must be made by September 1, 2026. Injury resulting in death of a bull will not be the responsibility of the Seller. This is an insurable risk for which the purchaser can obtain coverage through a livestock insurance provider.

## DELIVERY

Free delivery to central points within 250 miles. We will assist all buyers to arrange delivery in the most economical way possible.

# FEEDING PROGRAM

The bulls were started on feed at weaning in September. They have been on a high roughage ration with free choice grass hay. The bulls have been developed in a pasture with ample space to maintain health and encourage good feet and legs. They are not developed in a feedlot environment. With this program we have been able to grow the bulls in good shape without excess fat, and deliver them to our customers ready for breeding

# EPD EXPLANATION

**ProS:** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born. (Index/High Value)

**HB:** HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability.(Index/High Value)

**GM:** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the postweaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area.(Index/High Value)

**CED:** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

Chandler Cattle Co	113	57	56	12	-2.61	69	114	29	12	.42	.26
Red Angus Breed Average	102	50	52	13	-1.72	68	108	26	12	.46	.13

# EPD EXPLANATION CONTINUED

**BW:** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW:** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW:** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**MILK:** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**HPG:** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**MARB:** Marbling predicts differences in marbling score-amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**REA:** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**RED ANGUS**  
RANCH TESTED. RANCHER TRUSTED.
